PROFESSIONAL SUMMARY

Computer Engineering undergraduate with a strong interest in cybersecurity, computer networks, and secure software systems. Experienced in developing network-based applications, working with Linux environments, and applying networking concepts in practical engineering projects. Passionate about designing secure, reliable, and efficient communication systems.

EDUCATION

BSc Engineering (Computer Engineering)

University of Ruhuna, Sri Lanka

2023 – 2027

GPA: 3.43 / 4.00

Diploma in English Language and Literature

Aquinas College of Higher Studies, Sri Lanka

June 2024

Relevant Coursework: Computer Networks, Network Security, Operating Systems, Software Engineering, Data Communication.

TECHNICAL COMPETENCIES

Networking: TCP/IP, Socket Programming, Network Communication, Client-Server Architecture

Cybersecurity: Security Fundamentals, Authentication Concepts, Access Control, Vulnerability Awareness

Systems: Linux (Ubuntu), Bash/Shell, Git, GitHub, System Administration Basics

Programming: Python, C++, Java, JavaScript

CYBERSECURITY & NETWORKING PROJECTS

Bike Race Network | Networking Application 🚴

- Developed a network-oriented platform supporting communication between users, participants, and race organizers.
- Applied application networking concepts, structured communication workflows, and user interaction design.

DevOpsPro | DevOps & Infrastructure 🚀

- Explored DevOps practices including automation, version control, and software delivery workflows.
- Applied Linux-based development environments and deployment concepts.

Vision-Based Vehicle Speed Estimation | Computer Vision System 🚗

- Developed an intelligent traffic monitoring system demonstrating real-time data processing and system communication concepts.
- Applied computer vision techniques for automated object detection and analysis.

Job Searching App | Software Platform 📱

- Developed a user-based application demonstrating secure data handling and structured application workflows.
- Implemented system components involving user interaction and information management.

EXTRACURRICULARS & COMMUNICATION

Vice-Captain, Karate Team | Faculty of Engineering, Ruhuna

2024 – 2025

Member | IESL & IEEE Student Branches

Active

Network Engineering Competencies:

TCP/IP

Network Security

Linux

System Administration

Problem Solving
